BC 19-20 Basic Clip 35019

Areas of application:

The Basic Clip BC can be fastened on each surface - by a screw on wood and metal or simply by the push of a thumb with the Dowel Fastening Nail DSN, resp. with screw and rawl plug on concrete/aerated concrete or on brick walls.

Installation Guide:

With DSN:
• Drill a 6 mm Ø hole,
• insert DSN with BC in the hole,
• push the pipe into the clamp.

With screw:
• fasten the BC with a screw, suitable for the surface,
• pusch the pipe into the clamp.

Product details:

Colour	light grey
Content pack/box	200 / 3.600
Insulation pipe Ø	20

Technical data:

Material	PP, UV stabilised
	Temperature range: -10 °C up to +85 °C
	silicon-free
	Material tested according OVE R14 (LSFOH)
Weight per piece	2,50 g
GTIN (EAN)	9 008439 450190

Without the need for further screws, several Basic Clips BC of different sizes can be connected by simply inserting or latching. Mounting time and costs are saved.
